

MAPLON®

Backlit

Maplon® Backlit is a specially designed Polypropylene sheet that comes in an appealing White Opal color and offers great diffusion for backlit applications.

This special color combined with the tailored surface creates a high-quality, eye-catching image. Maplon® Backlit provides an optimal combination of light transmission and diffusion to make it perfect for many different applications such as Menu Boards, snap-frames and other backlit signage.

Maplon® Backlit offers cost effective and competitive prices for the backlit solution.

Light Transmission (LT%)	Thickness	SG (mm/inch)	Embossing	Max Width (mm/inch)
40-60	0.22-0.35mm / .009-.014"	0.91	Satin/Satin Sand/Satin	1520mm/60"
	0.40- 3.00mm / .016-.120"		Satin/Satin Sand/Satin Sand/Sand Sand/Orange Gloss/Sand	

MAPLON® at a glance

- Enhances ink adhesion & low ink consumption.
- 100% recyclable
